Kilns™**

Add a splash of color to your new Paragon SC-series kiln!

Imagine the incredible jewelry you could make in your own Paragon SC-series kiln. The controller is easy to use, reliable, and accurate. The kilns ship by convenient UPS. And for \$50 extra, order your kiln in berry, black, jade, navy, pink, purple, or turquoise! Brighten your studio!

The SC-series door opens 180 degrees for easy loading. The kilns ship by UPS and are also available for Europe.

The SC-series are surprisingly affordable for digital kilns. They fire automatically at the rate and temperature you enter. A large, brightly lit display prompts for firing rate, temperature and hold time. Use the hold feature to automatically soak any type of clay silver or gold to its recommended time.

The high-tech, energy efficient ceramic fiber firing chamber is wrapped in a steel inner case. The outer steel case remains cool due to the layer of air between it and the inner case. Electrical components, located in the base, stay cool for long life even at extended hold times. The long life of a Paragon SC-series kiln is legendary.

The fast firing element is embedded in the firing chamber shell. The SC-1, SC-2, and SC-3 heat from the two sides for superior heat distribution. The SC-2 and SC-3 include a top vent for lost wax casting, complete with a tapered plug. Each SC-series kiln includes a 1/4" thick ceramic fiber shelf.

The new SC-1 is designed for traveling. It is small enough to carry even under your arm.

Door Options

Order an SC-2 or SC-3 with an optional bead annealing door, glass window, or both. Watch the interior turn bright red through the glass window. It is 1" x 3" when ordered with the bead an-

nealing door and 2" x 2" without the bead door. (Note: always wear firing safety glasses when viewing the kiln interior.) The glass window is guaranteed up to 2350°F (1260°C). The SC-1 can be ordered with an optional 1" x 3" window. It is not available with bead door.

The standard door

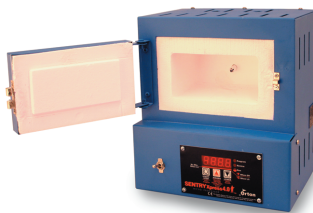

The 2" x 2" glass window

The 1" x 3" glass window and bead door

The SC-2 and SC-3 are certified to CSA and UL standard 499.
